MONEY, BONDS AND STOCKS.

New York Market in Control of the "Bears," with Lower Prices for Active Stocks. NEW YORK, Aug. 14.-Money on call was easy at 14 @2 per cent, the last loan being made at 2. closing offered at 1.

Prime mercantile paper, 4264 per cent. Sterling exchange was active and steady, with active business at \$4.841 for sixty-day bills, and \$4.87 for demand.

The total sales of stocks to-day were 179,657 shares, including the following: Delaware, Lackawanna & Western, 17,320: Erie, 7,455; Lake Shore, 6,295; Louisville & Nashville, 6,820; Missouri Pacific, 4,200; Northwesern, 5,875; Northern Pacific, preferred, 5,665; Reading, 11,200; Richmond & West Point, 3,225; St. Paul, 22,730; Texas Pacific, 5,825; Union Pacific, 11,810; Western Union, 16,341.

The stock market to-day was left at the mercy of "bear" traders, and from the opening until the close there seemed to be no support, or any organized resistance to the "bear" raids. The movement was generally considered a needed reaction, and the lower prices resulting from the day's operations are believed to be simply a natural incident to the long-continued rise. London houses were moderate buyers at the decline, but the purchases for that account failed to cause a rally, and, when some heavy selling orders from Chicago and Saratoga were execut ed, prices gave way easily. Chicago, Burlington & Quincy was specially weak, and declined 2 per cent, after opening unchanged from last night's close. Some selling of L. & N. was caused by the yellow fever reports from the South, and the report of damage to the crops reduced the sales of the grangers. Some large stop orders were reached by the decline, and helped the "bears in their efforts to depress prices. The market opened generally steady at fractional decliner from last night's final prices, and the first few minutes the coal stocks made a slight gain, but the tone soon became heavy and prices declined steadily. Toward noon the feeling again became steady, but the decline was resumed and continued until the close. Final prices for the active stocks, with the exception of Richmond Terminal, are all lower, Burlington & Quincy showing a decline of 2 per cent, L. & N., 19: Lake Shore and Missouri Pacific, 1; Delaware, Lackawaona & Western and Delaware & Hudson, 11; Western Union, 11; Chicago & North-western, 11; Texas Pacific, 1 per cent., and others fractional amounts.

The market for railroad bonds was active and the demand was fully up to the range of previous days. The tone was strong in the face of the decline in shares, and slight gains were made in the active issues. The total sales were \$1,956,000, of which the dealings in Philadelphia & Reading general mortgages furnished \$386,-000, the second preference income bonds \$192,-000, and the first preferred incomes \$178,000.

CHICAGO, Aug. 14.-Wheat opened at the various exchanges in the country to-day from to to to lower than the closing prices on Monday. The early cables gave better weather abroad. with free offerings and selling by exporters at New York. The tone was bearish all round. There was selling by the country of "long" wheat, and professionals thought it was going on down as on Monday, and they joined in the seliing. This took the price of September to 81 jc, and that was a good point for certain parties to buy for covering, and they did it. Then the light receipts for Wednesday were made known, and there was more buying on that and the price went up, about noon, to the best point of the day, 821 @ 821c, but afterward fell below 82c.
The surprise of the day was in corn. August closed nearly 2c over the bottom for the day, at 451c; September closed 11c over last night, at 45c. The low prices were shortly after the opening, when September touched 43to. The demand for cash corn for shipping was soon felt; the estimate for Wednesday was found to be but 250 cars; the "shorts" turned in to cover, and little corn was for sale. A leading operator turned a big buyer and the result was a remarkable advance without any special excitement. Oats sympathized somewhat with the improvement in corn. The speculative demand was fair and a firmer feeling prevailed, but fluctuations were small. Mess pork was in small request and unsettled. After declining 20c on account of the yellow fever scare, it rallied a like amount in sympathy with the advace in corn, and closed steady. Short ribs were in limited request. After a decline of .021 @ .05c there was a slight reaction, but the market closed dull. The lead-

INDIANAPOLIS MARKETS.

The Market Healthy in Tone and Full of Promise.

INDIANAPOLIS, Aug. 14. Pleasant relations continue to exist between the buyers and sellers in most departments, and the market is healthy in tone and full of promise. Very little inclination to speculate is noticeable, but a good, conservative feeling that leads to a development of demand the moment supplies are required. The promised bountiful harvest, it is believed, will add to the movement among consumers of staple articles. In most departments there is a steady and firm tone to prices; especially will this remark apply to dry goods, fancy notions, etc. A number of buyers were in to-day, and the bills they purchased show that they had confidence that fall trade was to be good. Grocers report their trade as improving daily. On most articles there is a firm tone to prices. In commenting on the three staple articles in the grocery line, namely, coffees, teas and sugars, the Commercial Bulletin says: "Brazil coffees continue to be fairly well held, with occasional expression of confidence taking quite decided form. The market, however, does not become active and vigorous in a manner to infuse general confidence, and indeed some operators who were rather enthusiastic a few days ago have toned down a trifle owing to the slow manner in which the negotiations on distributive outlets progress. Country wants, however, are really believed to be on the increase, and a sudden development of demand is likely at any moment, larger warehouse deliveries indicating that business is growing. Holders of sugars generally fail to find anything calculated to modify their confidence in the situation, but on the contrary the feeling seems to be a little enthusiastic in some quarters over expectations of still further gains. At pretty much every point of supply the situation is strong, both as to statistics and cost, and the evidences all favor belief in growing wants among refiners that cannot be met unless they come upon the open market. Europe sends strong accounts. In teas a certain degree of caution is still exhibited among buyers-too much caution and too few buyers, some of the trade appear to think, and there is a complaining tendency noticeable. It does not act as a depressing influence upon holders of desirable teas, however, and when attractive samples are found the line of valuation is generally in accordance," Produce markets were active to-day; receipts of eggs, poultry and butter more liberal, while prices ruled strong at quotations on the three items mentioned. Watermelons and nutmegs are in large supply and prices rule low. Apples and potatoes arriving quite freely; prices steady but not strong. Hardware men are having a good trade; prices firm. Iron merchants report trade improving and prices steady. The flour market is active and a shade firmer prices prevail East. In this market the prices of some

GRAIN. There was a little more activity in the local market to-day than on Monday, yet there is large room for improvement. The Indianapolis Market Report says of the local market: "Inspections for past two days, 147 cars, as against 158 cars for preceding two days. Wheat is quiet, and offerings only fair. No. 2 red sold generally at 82 tc, track, with a few sales at to better. No. 3 red brought from 75 to 79 to, the latter price being for best samples. Rejected. sales as high as 76c were reported, but very little sold above 73c, and ranged down to 67c. Unmerchantable-Little offered for sale. We quote 56 265c, nominal. White grades of corn are being offered, to arrive, very freely. No. 2 Eggs easier on liberal supply; receipts, 6,580

BOSTON, Aug. 14.—The movement in demestic white offered at 48c, with 47c bid. White mixed whole ontinues good. Michigan wools have been the favorite thus far in washed fleeces, and better than 43½ 34c. There is little doing in case, 9c.
